

Biography of the Deputy Premier, minister of Economy, Science and Innovation and minister responsible for the Digital Strategy, Ms. Dominique Anglade

Born in Montreal in 1974, Dominique Anglade is a businesswoman and politician involved in the community.

With a bachelor's in industrial engineering from École polytechnique de Montréal and a master's in business administration (MBA) from HEC Montréal, she started her career in 1996 at Procter & Gamble as an engineer. Two years later, Ms. Anglade, then 24 years old, was promoted to head up an operations department with more than a hundred employees.

From 2000 to 2003, she worked at Nortel Networks, where she specialized in strategic supply chain management and global market forecasting. In 2004, she became the company's Director of External and Government Affairs in Quebec. From 2005 to 2012, Ms. Anglade worked for McKinsey & Company, where she developed recognized expertise in the field of major organizational transformation.

From 2013 to 2015, she was President and CEO of Montréal International, an organization committed to attracting foreign investment, international organizations and strategic talent to the Greater Montréal area.

She then made the jump to politics, successfully running for Member of the National Assembly for Saint-Henri-Sainte-Anne in 2015 and joining the Government of Québec. In January 2016, she was appointed Minister of Economy, Science and Innovation and Minister responsible for the Digital Strategy. She was appointed Deputy Premier of Québec on October 11, 2017.

The community involvement of this mother of three has often been highlighted over the last twenty years. She has sat on the BOD of some fifteen organizations, serving as chair on some of them. Ms. Anglade also co-founded the KANPE Foundation, which supports vulnerable Haitian families in their transition to economic independence.

Throughout her career, she has received more than 25 distinctions. The Ordre des ingénieurs du Québec also recognized Dominique Anglade's exceptional contribution to the profession through her great social involvement. In 2014, she was named a Young Global Leader by the Davos World Economic Forum.
